

OTC Formulary (BY DRUG CATEGORY) January 2026

Notes:

The Maximum Medical Aid Price (MMAP) is the maximum amount your medical scheme will pay for a medicine on your plan. The prices shown are based on information available as of 20 November 2025 and may change over time. If a MMAP is not available for a medicine, the Single Exit Price (SEP) will apply instead.

Members are encouraged to make use of the trade name example, so that member out-of-pocket expenses are avoided.

Quantity limitations are applied by drug category and dosage format. Quantity limitations do not apply to medication authorised as Chronic.
